

AMENDMENTS TO THE SPECIFICATION

IN THE ABSTRACT OF THE DISCLOSURE:

Replace the Abstract of the Disclosure currently of record with the attached new Abstract of the Disclosure.

--The invention provides a method and apparatus for sticking a polarizer to a liquid crystal panel. The method includes advancing a liquid crystal panel or similar substrate along a conveyance line, peeling a separate sheet from a polarizer to expose an adhesive layer, and sticking the polarizer to the liquid crystal panel or other substrate. An apparatus according to the invention is compact and suitable for use in connection with relatively large panels.--
